February Meeting Highlights

Phyllis Lann was with us at the February meeting. Phyllis has many years in chair seating and has trained many of the people that are in this business. She passed around different type of seating material such as cane, Danish cord, rush and shaker tape. Danish Cord is paper rush but with three twisted papers and then the three are twisted together. She did a shaker tape stool which was raffled off at our meeting. The Shaker stool had a checkerboard pattern on the top and a herringbone pattern on the bottom. When an old chair needs to have the cane replaced she charges \$1.00 a hole. Phyllis said she would be willing to have a class on the above either in her home or would come to Hodgsons if enough members are interested. The class would be at a very nominal fee.

The Stool was won by Tony Knisley

Jim Stevens won the raffle prize - a \$30.00 gift certificate to Woodcraft.

Federal Style Baltimore Card Tables

Jeremy Noblitt brought in the hinge. Nice work Jeremy

Jim Stevens and Tony Albano brought in the legs and described how they tapered the legs on a planer table

The project for guild members to jointly build two Federal Style Baltimore Card Tables is coming together nicely. The guild is supplying the lumber and plans for the project and members will volunteer to build a portion of the project. When the tables are complete, we will auction them and the proceeds will be donated to a local charity.

The project is broken down into eight activities; legs, apron, top, stringing, banding, inlays, veneering and finishing.

We need at least two volunteers for each activity, preferably one knowledgeable with the activity and one that desires to learn or improve their skills for that activity.

We started with the legs, apron and top; the group gets together and builds their section of the table. If possible take as many photos as possible and we will

publish them on our web site. The group will be given a schedule to complete their activity. At completion, the group will bring their work to the scheduled meeting and spend thirty minutes in the meeting demonstrating and talking about the piece they completed. If possible they can build one piece at home and the second piece in the meeting. They will then pass the completed piece to the next group for further incorporation into the project. By the end of the meeting year, we will have two completed tables.

Please add your name to the sign-up sheet at the next meeting or contact John Dunbar to participate in this project.

Jean Batulis and Jeremy Noblitt did a great job on the apron and hinge. Jerry Sheeran and Jim Kirkbride on the mahogany top and Jim Stevens with Tony Albano did the same on the legs.
